Education

Dr. Babasaheb Ambedkar Technological University, Lonere 2021-2024

B-Tech (Electronics and Telecommunication)

Government College Gadchiroli 2018-2021

Diploma (Electrical Engineering) (Percentage-82.94%)

SKILLS SUMMARY

Languages: Python, SQL, Core JAVA, JavaScript, CSS3, HTML5

Frameworks: Pandas, NumPy, Matplotlib, Seaborn, SciPy, Bootstrap5, OpenCV, MediaPipe, PyAutoGUI, PyMath

Tools: Excel, PowerPoint, MySQL, XAMPP

Soft Skills: Empathy, Ethical Awareness, Time Management, Attention to Detail, Adaptability, Collaboration

Technical Skills: Data Visualization, Statistical Analysis, Data Management

WORK EXPERIENCE

Cloud Computing Intern (Sept2023-Dec2023) Link

- Implemented AWS S3 service to host websites and store data, enhancing efficiency and accessibility.
- Employed Cloud Watch for effective billing and cost management, resulting in optimized expenses.
- Utilized SNS for email notifications upon reaching threshold values, ensuring prompt action.
- Ensured utmost security by implementing Key Management Service for safeguarding sensitive data.
- Leveraged various AWS services including IAM, EC2, Lambda, Dynamo DB, AWS Amplify, and API Gateway to streamline operations and enhance performance.

Data Science Intern (Mar2024) Link

- Gathered and refined raw data from multiple sources, ensuring its accuracy and consistency for analysis.
- Conducted in-depth exploratory data analysis (EDA) to uncover valuable insights, identify patterns, and identify outliers.
- Developed robust predictive models using machine learning techniques such as regression, classification, and clustering.
- Created visually engaging and interactive data visualizations and dashboards using tools like matplotlib and seaborn.

PROJECTS

Data Analysis with Python (Link)

- Cleaned and manipulated data to ensure data accuracy and reliability.
- Conducted exploratory data analysis (EDA) using pandas, matplotlib, and seaborn libraries to gain insights and uncover patterns.
- Identified potential customers across various states, occupations, genders, and age groups, enhancing the overall customer experience.
- Boosted sales by identifying the most selling product categories and products, enabling effective inventory planning and meeting customer demands.

Mouse Control Using Hand Gesture with DIP (Link)

- Designed and implemented an algorithm to recognize and interpret hand gestures.
- Utilized DIP methods such as image segmentation, edge detection, and contour detection to process hand images.
- Integrated the gesture recognition system with the computer's mouse control interface.
- Conducted extensive testing and debugging to ensure accuracy and responsiveness.
- Documented the development process and created user manuals for the system.

CERTIFICATES

AZ-900 Azure Fundamental Certificate Challenge (Microsoft) Link
